SUMMARY

Informatics Engineering graduate with experience in Android development, Al/ML, and Ul/UX design. Skilled in Kotlin, Python, Firebase, and TensorFlow Lite, with strong teamwork and communication skills.

EDUCATION

Universitas Cendekia Abditama

August 2020 - July 2024

Bachelor's degree in informatics engineering

GPA: 3.79/4.00

PROFESIONAL EXPERIENCE

Coding Studio

August 2024 - Present

IT Trainer for Children's Programming

- Taught Python, Unity (C#), and Web Development (HTML, CSS, JavaScript, PHP) to junior and high school students.
- Developed interactive learning methods to improve students' logical thinking and problem-solving skills.
- Strengthened communication and teamwork skills in a dynamic work environment.

Kodiokids x Kemendikdas (Freelance)

June 2025 - November 2025

IT Trainer (Coding & Artificial Intelligence)

- Trained elementary to high school teachers in coding and artificial intelligence (AI).
- Designed structured learning modules covering:
 - o Introduction to AI (basic concepts, applications, and future potential).
 - o Computational Thinking (problem decomposition, abstraction, pattern recognition, algorithms).
 - o Al Ethics (responsible use, bias awareness, and social impact).
 - o **Practical Al Applications** (how to integrate Al in education and daily life).
- Improved teachers' digital literacy and pedagogical skills for 21st-century education.

Govokasi – Project Based Internship (UI/UX Designer)

Sep 2024 – Oct 2024

- Redesigned the UI of **Videfly**, a startup company, to make it more interactive and user-friendly.
- Collaborated with the team to develop a more intuitive user journey and experience flow.
- Created and delivered team project presentations to stakeholders, showcasing design improvements and UX enhancements.

ORGANIZATIONAL EXPERIENCE

Paragon Corp

February 2024 – September 2024

Para Novo at Novo Club Batch 3

- Conducted market research and structured digital engagement strategies for brand missions.
- Participated in a bootcamp focused on self-awareness, time management, and energy management.
- Led a community initiative to drive brand adoption and product awareness.

Student Executive Board (BEM) - Universitas Cendekia Abditama

Head of the Communication and Information Division of The Media Section June 2022 - May 2023

- Led a team of 20 members to streamline internal and external communication.
- Managed digital content creation and social media strategies to boost engagement.
- Ensured content credibility and adherence to institutional guidelines.

Member of Communication and Information Division

January 2021 - June 2022

- Designed and developed over 20 social media content pieces, infographics, and promotional materials.
- Utilized Canva, Figma, CapCut, and Adobe Photoshop for digital marketing.

PRODUCT DEVELOPMENT PROJECTS

Thesis: "Development of Skin Cancer Detection Application using CNN Algorithm" February 2024 – July 2024

- Developed an Android-based application for skin cancer diagnosis using Convolutional Neural Network (CNN) for image scanning.
- Conducted user research, designed user journeys, and created initial usage scenarios.
- Utilized Kaggle dataset to train and validate the model with iterative approaches for optimal diagnostic accuracy.
- Designed initial prototypes, tested them with users, and implemented advanced features to enhance the user experience during scanning.
- Covered the entire product lifecycle, from requirements research, UI design, prototyping, validation, to documentation.

Web-Based Evaluation Application using Servqual Method and PHP-MySQL

August 2023 – September 2023

- Built a web-based solution to address user needs for evaluating institutional service quality.
- Applied Value Proposition Canvas to identify users' pain points and expectations.
- Developed a PHP-MySQL system for real-time and efficient evaluation data management.
- Designed a service improvement roadmap based on Servqual dimensions, validated through user feedback.
- Achieved a **40% increase in user satisfaction** through an intuitive evaluation dashboard implementation.

ACHIEVEMENTS & CERTIFICATIONS

- Selected as IT Trainer by the Ministry of Primary and Secondary Education (Kemendikdas) for the KKA (Koding dan Kecerdasan Artifisial).
- Writer & Presenter, SENIKO (Seminar Nasional Informatika dan Komputer), 2024
 - "Android-Based Digital Name Card Using CNN Algorithm and OCR Technology"
 - Presented research findings as the **main author** at a national seminar.
 - Published in the **Proceedings of SENIKO 2024** (Informatics & Computer Science)
- Bangkit Academy 2023 Android Development Learning Path (Google, GoTo, Traveloka)

SKILLS

- Tools: GitHub, Firebase, Figma, Canva.
- **Soft Skills:** Growth Mindset, Communication, Time Management, Adaptability, Analytical Thinking, Resilience.
- **Technical Skills:** Python, Kotlin, SQL, Web Development, Mobile Apps.
- Design & Product: UI/UX Design (Figma, Wireframing, Prototyping, User Flow)
- Business & Leadership: Project management, teamwork, problem-solving, agile mindset
- Languages: Indonesian (Native), English (Fluent).
